Evaluation of Whether A Site-wide Environmental Impact Statement Would Facilitate Future NEPA Compliance Efforts

Real Estate operated by the Office of Secure Transportation are scattered through out the United States. Because of the varying environments, it is not practical to prepare a programmatic NEPA document and would not facilitate NEPA compliance efforts. For this reason, NEPA reviews are performed site specifically. The operations of the Office of Secure Transportation have been evaluated in programmatic documents (Stockpile Stewardship and Management, Pantex Site-Wide and the Sandia Site-wide). Supplemental Analyses have been prepared for those documents. Current Operations remain bounded by the programmatic NEPA documents.
